

TENS vs. Pain Medication

TENS

No side effects

Non-addictive

Injury Specific
(used on back for back pain, leg for leg pain, etc.)

Can be used for pain relief 24 hours a day

Cost Effective -- one-time purchase at \$495
(patient owns unit for lifetime)

Lifetime Warranty

Customer Service –
Available 24 hours a day / 7 days per week

Pain Medication

Side effects
(may include but not limited to: drowsiness, nausea, dry mouth, dizziness, vomiting, constipation, muscle twitches, sweating, itching, decreased urination, decreased sex drive, slow, weak breathing, seizures, cold, clammy skin, severe weakness or dizziness, unconsciousness, yellowing of the skin or eyes or unusual fatigue, bleeding, or bruising, and allergic reactions such as rashes, swelling and difficulty breathing.)

Addictive

Non-injury Specific

Effectiveness wears off as time passes

Monthly prescription costs
(\$60/mnth x 12 mnths = \$720)
(\$60/mnth x 24 mnths = \$1440)

No Warranty

No Customer Service

TENS units are ideal for patients in pain trying to resume a normal active lifestyle. Portable and lightweight, TENS units can be worn underneath garments while at work, shopping, at home, or wherever...without unwanted side effects and addictive tendencies.
